SOVIET PLANT PHYSIOLOGY
Volume 20, Numbers 1-6, 1973
(A translation of Fiziologiya Rastenii)

Volume 20, Number 1 January-February, 1973

	Engl.	Russ.
The Period of Dormancy and Ability of Woody Plants to Be Hardened by Low Temperatures—I. I. Tumanov, G. V. Kuzina, and L. D. Karnikova	1	5
Short-Term Effect of Freezing Temperatures on the Content and State of Pigments in Leaves of Potato Species with Different Resistance—K. A. Nyuppieva and O. P. Osipova	10	17
Significance of Initial Freezing Temperatures in Frost Hardening of Plants—O. A. Krasavtsev	16	24
Incorporation of Different Exogenous Sugars in Metabolism of Winter Wheat at Low Temperatures—V. I. Babenko	22	32
Dynamics of Sugar Content in Winter-Vegetating Fodder Crops under Conditions of Tadzhikistan—A. A. Prokof'ev, Kh. Kh. Karimov, and R. I. Cherner	28	40
Effect of Dehydration on Lasting Afterglow of Grape Leaves—T. V. Veselova, V. A. Veselovskii, V. V. Grinenko, B. N. Tarusov, Yu. S. Pospelova, and I. I. Stetsenko	34	47
Effect of NaCl on Content and Synthesis of Nucleic Acids in Tomato Tissues—E. I. Tsenov, B. P. Strogonov, and V. V. Kabanov	40	54
Chlorophyllase Activity in Tomato Leaves under the Influence of Salinization and an Herbicide—M. V. Sivtsev, S. A. Ponomareva, and E. A. Kuznetsova	47	62
Genetic Resistance of Plants to Ionic Toxicity in the Root Zone—É. L. Klimashevskii and K. K. Berezovskii	51	66
Absorption and Accumulation of Phosphate by Plants under Conditions of Soil Salinization—N. V. Zhukovskaya	55	71
Changes of Peroxidase Activity in Resistant and Susceptible Varieties of Wheat during Infection with Stem Rust—V. V. Chigrin, E. A. Shutova, and M. A. Sautich	62	79
Effect of Strophanthin on the Bioelectric Response of Plant Leaves under Light and in the Dark—I. A. Rybin and S. A. Mikheeva	68	86
Renewal of Carotinoids in Green Plants—G. N. Lutsenko and V. S. Saakov	71	90
Fine Structure of Chloroplasts in Normal and Mutant Pea Plants Grown under Light of Different Spectral Composition—M. P. Vlasova and N. P. Voskresenskaya	76	96
Use of Nomograms to Calculate Content of Pigments in Leaves—I. A. Shul'gin, O. N. Lipovetskaya, N. N. Vygodskaya, and A. A. Nichiporovich	83	103
Correlation Between the Ultraviolet Transmission Spectra of Living Leaves and the Processes of Photosynthesis and Respiration—T. M. Radomysl'skaya and S. L. Pumpyanskaya	88	109
The Role Played by Lipid Fatty Acids of Chlorella in Recovery of Cells after Nitrogen Starvation—G. L. Klyachko-Gurvich, T. S. Rudova (Zhukova), and G. P. Kuznetsova	92	114
Metabolism of Lipids during the Process of Ripening of Indian Mustard Seeds—L. N. Kharchenko	100	123

Effect of Auxin and Gibberellin on Activity of Glucose-6-Phosphate Dehydrogenase and 6-Phosphogluconate Dehydrogenase in Wheat Coleoptile Cells of Different Ages—T. V. Likholat and A. S. Levina 106 130
Regulation of the Process of Tobacco Leaf Ripening with the Aid of Physiologically Active Substances—T. P. Mikhailova, N. V. Shchuka, and R. G. Davidenko 112 138
Defoliating Activity of Sulfonium Salts and Certain Other Preparations —Yu. V. Rakitin, K. S. Bokarev, and V. Yu. Rakitin 117 144
Investigation of Permeability of Barley Root Cells in Relation to the Herbicide Atrazine—N. M. Zhirmunskaya and S. S. Kol'tsova. 123 151
Energy Efficiency of Respiration in Tomatoes under Different Conditions of Zinc Supply—T. A. Paribok. 128 158
Deamination of Exogenous Amino Acids in Root Homogenates—S. F. Ukhina 134 165
Localization of NAD·H_2(NADP·H_2):p-Benzoquinone Oxidoreductases in Cellular Fractions of Pea Leaves—P. A. Kolesnikov, S. V. Zoré, K. V. Pshenova, E. I. Petrochenko, N. K. Pletnikova, L. E. Makovkina, and A. A. Mutuskin 138 170
Physiological Aspects of Selecting Plants for Early Ripening and Productivity —A. S. Obraztsov 142 175
Effect of a Constant Magnetic Field on Growth of Corn Seedlings—D. A. Dul'binskaya . . 149 183
Changes of Wax Content in Ripening Fruits of Different Varieties of Apple —A. A. Kolesnik and S. S. Khovanskaya 152 187

SURVEY

The Reaction of Inhibition during Incompatible Pollination and Its Elimination —H. F. Linskens 156 192

BRIEF COMMUNICATIONS

Effect of Constant Magnetic Fields on Rate of Respiration in Pure-Line and Heterotic Corn Seeds—I. M. Talanova and V. G. Shakhbazov. 167 204
On the Electrical Charge of Tree Pollen—V. I. Arabadzhi 170 206
Effect of Indan-1,3-dione Derivatives on Root Formation in Bean Cuttings —V. P. Oshkaya and D. Kh. Mutsenietse 172 208

METHODS

A Technique for Investigation of Root Exudates of Higher Plants—V. A. Pronin and F. V. Voronkova. 174 210
An Apparatus for Investigation of Components of the Water Potential of Leaves —M. Rakhi 178 215

Age Changes of Ultraweak Luminescence in Zones of Lupine Roots in Isolated Cultures – K. V. Krishnamurti, A. A. Aver'yanov, N. G. Potapov, and V. A. Veselovskii	578	688
Effect of Pyridoxine on Growth of Isolated Apple and Pear Embryos in Sterile Cultures – A. V. Kozhin and P. V. Kravtsov	582	693
Role of the Roots in Activation of the Leaves during the Stage of Generative Development of Plants – V. O. Kazaryan, V. O. Davtyan, and A. A. Chilingaryan	588	700
Content of Free Nucleotides in Leaves of Certain Representatives of the Family Magnoliaceae – I.I. Bogacheva and I. M. Shlykova	595	708
Effects of Gibberellin and Kinetin on Embryo Growth and Seed Germination in Spindle Tree and Tatar Maple – M. G. Nikolaeva, T. V. Daletskaya, M. V. Razumova, and N. N. Kofanova	600	714
Endogenous Gibberellins during Dormancy and Growth of Tulip Bulbs – G. Syrtanova and I. Rakhimbaev	606	721
Combined Effect of Kinetin and Chloramphenicol on Content of Chlorophyll and Synthesis of Active Protochlorophyllide in Green Leaves of Barley – A. A. Shlyk and N. G. Averina	610	725
Noncyclic Electron Transport and Related Problems – E. M. Sorokin	617	733
Effect of Light Intensity on Fine Structure of the Chloroplasts in Vicia faba Plants – M. P. Vlasova and O. P. Osipova	624	742
Induction Transitions of Fluorescence in Different Groups of Plants – Yu. S. Grigor'ev, V. M. Gol'd, N. A. Gaevskii, and N. P. Belonog	630	747
Changes in the Concentration of Galactolipids and Phospholipids in Potato Leaves as a Function of Illumination – V. S. Rodionov	635	753
Metabolism of Exogenous Alanine in Plant Leaves – A. T. Mokronosov, S. K. Nazarov, and G. I. Rakhimova	638	757
Effect of Macroelement Deficiency on Structure of Chloroplasts in the Parenchyma Sheath of Corn Conducting Bundles – J. Repka, M. Sarić, and J. Marek	645	766
Localization of Proteolytic Enzymes in the Aleurone Grains of Vetch Seeds – T. N. Koroleva, M. V. Alekseeva, A. D. Shutov, and I. A. Vaintraub	650	769
Physiological Analysis of Transitional Processes in Exudation of Bleeding Sap by the Root System of Sunflower – D. B. Vakhmistrov and V. M. Ali-Zade	654	773
Investigation of ATPase Activity in Sugar Beets at Different Ratios of Potassium and Sodium – T. A. Palladina and B. I. Bershtein	664	785
Nitrogen Compounds in the Form of Which N^{15} Enters Barley Caryopses – A. N. Pavlov, N. V. Lobanova, and T. I. Kolesnik	668	790
Effects of NaCl and Na_2SO_4 on Functional Activity of the Photosynthesis Apparatus in Corn – L. P. Lapina and S. A. Bikmukhametova	675	798
Effects of Sodium Chlorides and Sulfates on Plant Composition – V. V. Kabanov and Zh. Otegenov	682	806
The Euxerophytic Affiliation of Haberlea rhodopensis (Family Gesneriaceae) – P. A. Genkel' and N. D. Pronina	690	815
Investigation of the Water Regime of Wheat and Barley during the Period Critical in Relation to Inadequate Soil Moisture – O. B. Motkalyuk and N. N. Kozhushko	693	819
Aftereffect of Supercooling on Different Organs of Cucumber Seedlings – L. A. Nezgovorov, A. K. Solov'ev, and L. N. Rodina	697	824
Electron-Microscopic Study of Cells on the Coleoptiles of Wheat, Wheatgrass, and Their Hybrids at Low Temperatures – N. B. Khristolyubova and V. T. Safonova	705	834
Effect of the Retardant CCC on Content of Phosphorus Compounds and Sugars in French Bean Leaves during Drought – N. N. Kharanyan	712	840
Effect of Herbicides on the Phenolic Complex of Plants – A. P. Volynets and V. N. Kornelyuk	716	844
A Procedure for Obtaining Leghemoglobin from Lupine Nodules by Fractional Salting Out with $(NH_4)_2SO_4$ – Ya. V. Peive, B. P. Atanasov, G. Ya. Zhiznevskaya, and N. N. Krasnobaeva	723	852

	Engl.	Russ.
Accumulation of Ca^{45} by Mitochondria of Infected Cucumber Tissues – V. A. Aksenova, A. I. Brynza, and B. A. Rubin	728	857
METHODS		
A Microscope Thermostage – E. I. Barskaya	733	862
Separation of Phythohormones and Natural Inhibitors by Means of Paper Chromatography – P. V. Vlasov, V. I. Kefeli, and R. Kh. Turetskaya	736	865
Production of an Acellular System of Protein Synthesis from Isolated Gourd Cotyledons – N. L. Klyachko	739	869

Activity of the Protein-Synthesizing System in Isolated Gourd Cotyledons in Vivo and the Effect of 6-Benzylaminopurine on It—N. L. Klyachko, L. A. Yakovleva, and O. N. Kulaeva	1037	1219
Certain Characteristics of the Surface Phosphatase Activity of Barley Roots —D. B. Vakhmistrov, N. E. Mishustina, V. N. Ismailov, S. A. Samoilova, and N. I. Tikhaya	1042	1224
Activity and Isoenzyme Composition of Root Peroxidase as a Function of Conditions of Temporary Anaerobiosis—T. V. Chirkova, E. L. Sokolovskaya, and I. V. Khazova	1052	1236
Dynamics of Carotinoid and Chlorophyll Content of the Upper Leaves of Wheat and Barley during the Period Critical with Respect to a Deficiency of Moisture in the Soil —O. B. Motkalyuk	1057	1242
Iron and Magnesium in Lettuce Leaves during Chloroses Induced by Excess of Copper and Manganese—A. Ya. Berzinya and G. Ya. Zhiznevskaya	1062	1248
Effects of Simple Phenols on Activity of Different Systems—A. B. Meskhi and D. I. Dzhokhadze	1066	1253
Detoxication in Plants of Toxic Substances of Industrial Effluences Used for Irrigation —S. I. Khramova and K. S. Bokarev	1070	1257

	Engl.	Russ.
Certain Characteristics of 2,4-D Decarboxylation in Plants—V. P. Dubovoi, D. I. Chkanikov, and A. M. Makeev	1073	1261
Characteristics of Peroxidase Isoenzyme Composition during Physiological and Infectious Diseases of Tobacco—B. A. Rubin, M. E. Ladygina, and A. M. Edreva	1079	1268
Effect of Infection with Verticillium dahliae on Protein-Synthesizing Activity of Chloroplast and Cytoplasmic Ribosomes in Cotton of the 108-F Variety—A. P. Ibragimov and Sh. Safarov	1084	1274
Cytochromes of the Coleoptiles of Rice Cultivated under Conditions of Strict Anoxia—B. B. Vartapetyan, A. I. Maslov, I. N. Andreeva, and G. I. Kozlova	1088	1279
BRIEF COMMUNICATIONS		
Effects of Thiamine and Riboflavin on Growth and Development of Isolated Pear and Apple Embryos under Conditions of Sterile Cultures—A. V. Kozhin, P. V. Kravtsov, and E. P. Skorobogatova	1093	1285
Effect of Adenine on Heat Resistance of Tomatoes—F. D. Émmerikh	1096	1288
PRACTICAL APPLICATIONS		
Effects of Certain Stimulants on the Yield of Healthy Potato Seed Material Obtained by the Technique of Meristem Culturing—A. N. Diba, G. N. Vinkler, and R. G. Butenko	1099	1291
METHODS		
A Technique for Fast Differential Coulometry in Research on the Kinetics of Oxygen Evolution during Impulsive Illumination of Plants—V. M. Lupatov, I. A. Trifonova, E. A. Afanas'ev, and V. M. Kutyurin	1102	1295
REVIEWS		
Z. Böszörményi, E. Czeh, G. Gárdor, and P. Kertai. Transport Processes in Living Organisms—Reviewed by P. V. Mel'nikov and D. B. Vakhmistrov	1106	1300
